As your student progresses through high school, funding from the CCA Foundation impacts his/her educational experience every day. From the first day of school, with state-of-the-art technology, science and language labs, and arts instruction found in your student's classrooms, to the last day of school, when your student receives a diploma provided by the CCA Foundation, generous parent donations contribute to an enriched and rewarding high school experience. With this in mind, we ask you now to please make a donation to the CCAF so we can continue serving the needs of your student. More than ever, we need your 'A Dollar a Day for CCA' donation of $180 to our general fund for basic academic needs this year. Donors who make this Raven's Fund contribution will receive an appreciation gift. We ask you to consider starting with a $180 donation to our Raven's Fund, and then adding to designated categories based upon the list below, keeping in mind the experiences your student selects during their Fall and Spring Terms:

Category:	Description:	Donation:	Qty:	Total:

YOUR CCA STORY

THE CANYON CREST ACADEMY FOUNDATION

Canyon Crest Academy Foundation – San Diego, CA

Enriching the experience of every student, every day

QUESTION: How did a public high school that opened with only 364 freshman students from portable buildings in a parking lot become the #1 Public High School in San Diego in less than 10 years?

ANSWER: YOU.

Since its beginning in 2004, when CCA first opened its doors, the **Canyon Crest Academy Foundation** has been working to raise funds to create, support, and consistently enhance the wide range of programs and outstanding education offered at CCA. As the school grew, so did the fundraising efforts. And so did **YOUR GENEROSITY AND INVOLVEMENT.**

With your unwavering support, the CCA Foundation has been able to continually reach its goals, while adhering to the original concept and high standards of CCA's founders and community.

The CCA Foundation consists of a volunteer Board headed by President Vidya Werry, a small staff headed by Executive Director Joanne Couvrette, and many other dedicated parent volunteers. Under Ms. Couvrette's direction, all fundraising activities including those for events, camps, and teams, are processed, organized, and implemented year round. Enrichment is provided throughout the campus in academics, arts, engineering, the sciences and humanities, college and career counseling, technology, infrastructure and athletic programs.

When you walk around campus, you see the donations made to the Canyon Crest Academy Foundation at work - classroom computers and software, students playing various sports with funded equipment and uniforms, state-of-the-art upgrades for the theater, gym, and weight room, lab equipment, innovative furniture, books and materials for the Learning Commons.

The CCAF also pays for coaching stipends, guest teaching artists, graduation events, the world language lab and so much more!

Every student at Canyon Crest Academy benefits in some way from the generous donations made by CCA families to the Canyon Crest Academy Foundation, fulfilling our mission of "enriching the experience of every student, every day."
